盐 水处理 WATER TREATMENT

SALT

盐, 广泛应用于水处理行业, 不管是软化系统中离子交换树脂的再生, 还是饮用水和环境消毒杀菌过程中含氯消毒剂的制取。庸德®系列水处理盐, 采用食品级高纯精制盐作为原料, 经不同工艺, 制造出符合不同水处理领域和设施所需的专用盐产品。

SALT is widely used in water treatment industry, such as the regeneration of ion exchanging resin in water softening systems, and on-site chlorination disinfectant systems for drinking water and environment sterilization. DE Salt® branded water treatment salts are manufactured from high purity food grade vacuum salt, where different types of specialized salt formed by different processes.
